

## **Audio Specialist** *26 Years of Excellence in Studio City*

The Audio Specialist located at 13251-D Ventura Boulevard in Studio City, specializes in expert repairs and sales of refurbished and vintage stereo equipment including turntables. "I love music and feel

blessed because I love what I do, repairing and selling quality vintage equipment," states Howard Bardach C.E.T., owner of Audio Specialist.

"We are now in a disposable society where nothing is built with quality or pride. At the Audio Specialist you can bring your vintage stereo equipment in for repair or restoration and in the process recapture your youth."

"We have seen a tremendous resurgence of interest in vinyl records," adds Howard, "and quite frankly, I am glad to see it. Somehow hearing the pops and cracks of vinyl spinning around with the needle in the groove just makes it sound better."
